### **DETAILED ACTION**

1. Claims 1-30 are presented for examination.
2. The following is a quotation of the second paragraph of 35 U.S.C. 112:  

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.
3. Claims 1-30 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.
4. Claim 1 recites the limitation "the object ("Object Model")" in line 14. There is insufficient antecedent basis for this limitation in the claim.
5. Claim 1 recites the limitation "the object ("Object Space") in line 16. There is insufficient antecedent basis for this limitation in the claim.
6. Claim 1 recites the limitation "the object ("Object Model")" in line 16. There is insufficient antecedent basis for this limitation in the claim.
7. Claim 1 recites the limitation "the object ("Object Space") in line 18. There is insufficient antecedent basis for this limitation in the claim.

Dependent claims not specifically rejected are rejected as being dependent upon a rejected base claim.

### ***Double Patenting***

Art Unit: 3661

8. The nonstatutory double patenting rejection is based on a judicially created doctrine grounded in public policy (a policy reflected in the statute) so as to prevent the unjustified or improper timewise extension of the "right to exclude" granted by a patent and to prevent possible harassment by multiple assignees. See *In re Goodman*, 11 F.3d 1046, 29 USPQ2d 2010 (Fed. Cir. 1993); *In re Longi*, 759 F.2d 887, 225 USPQ 645 (Fed. Cir. 1985); *In re Van Ornum*, 686 F.2d 937, 214 USPQ 761 (CCPA 1982); *In re Vogel*, 422 F.2d 438, 164 USPQ 619 (CCPA 1970); and, *In re Thorington*, 418 F.2d 528, 163 USPQ 644 (CCPA 1969).

A timely filed terminal disclaimer in compliance with 37 CFR 1.321(c) may be used to overcome an actual or provisional rejection based on a nonstatutory double patenting ground provided the conflicting application or patent is shown to be commonly owned with this application. See 37 CFR 1.130(b).

Effective January 1, 1994, a registered attorney or agent of record may sign a terminal disclaimer. A terminal disclaimer signed by the assignee must fully comply with 37 CFR 3.73(b).

9. Claims 1-30 are rejected under the judicially created doctrine of obviousness-type double patenting as being unpatentable over claims 1-19 of U.S. Patent No. 6,816,755. Although the conflicting claims are not identical, they are not patentably distinct from each other because the claims of the application encompass the claims of the patent because they are broader.
